NAVARA

When you've got a tough job to do, you need a tough mate to help you out. The latest Navaras are rugged enough and powerful enough to take on anything you've got. And on the weekend, if you get one, they're more than capable of helping you have some fun. The Nissan Navara will shift the way you work; it will shift the way you play; it will **shift the way you move.**

Sports Bar Optional Accessory.

With a choice of four different engines, there's sure to be a Navara to suit your various needs and budget. The latest member of the line-up is the new class-leading 140kW common rail turbo-diesel available on the ST-X Dual Cab. This extraordinary powerplant has increased power, torque, improved fuel economy and lower emissions thanks, in part, to an all new direct injection system and variable nozzle turbo with electronic control.

This increases power by up to 11% and provides an impressive 450Nm of torque. Its economy has also been improved to just 8.5 litres/100km* for the manual and 9 litres/100km* for the auto. If you prefer petrol, the 4.0 litre V6 petrol engine, available on the ST-X Dual Cab, delivers a **massive 198kW of power**. There are also two other engines in the Navara range providing the excellent fuel economy and low-down torque that good diesel engines are known for. The 126kW 2.5 litre diesel and the 106kW 2.5 litre diesel are both very hard workers making the Navaras that offer them outstanding value for money.

*Figures have been calculated in accordance with ADR 81/02 (combined fuel consumption data). Actual fuel consumption will vary depending on driving conditions, driver behaviour, the condition of your vehicle and the accessories fitted.

The Navara is justifiably famous for its 4WD ability and towing power. In fact, all Navara 4x4 models are capable of pulling a massive 3,000kg (trailer with brakes). The Navara's dashboard 4WD rotary switch makes it easy to select from three driving modes. 2WD High, for normal dry conditions, sends power to the rear wheels only. 4WD High locks the transfer case to split drive equally front and rear when tackling more demanding conditions. While 4WD Low is for serious off-road conditions like deep mud or sand. **The adjustable 4WD** system also comes in handy for steep climbing or when you need maximum engine braking while

descending. At the same time, the Navara offers a level of ride comfort more expected from a wagon than a workhorse, partly thanks to the way it's constructed. A strong high tensile steel ladder chassis with welded cross members offers less vibration and a reassuring solidity. While a highly effective suspension system provides impressive agility. On or off-road, you'll find that the Navara feels like it knows exactly what it's doing.

Inside, you'll find the Navara is as practical and functional as it is outside. But just because you're working hard doesn't mean you shouldn't enjoy a few creature comforts. All RX models come standard with air-conditioning, single CD player with MP3 compatability and auxiliary input. The ST and ST-X Dual Cab models kick it up a notch with features like a Bluetooth® handsfree phone system and a 6 stack in dash CD player that can be controlled via the steering wheel. Power windows and mirrors as well as remote central locking make your day just that little bit easier. The dual zone climate control in the ST-X Dual Cab makes sure the cabin is just as enjoyable for your passengers as it is for you. Although the interior is **comfortable and stylishly** designed, it's made tough and easy to clean if you happen to bring some of the outside in. No matter which Navara you choose, you'll enjoy a very comfortable ride. So, whether you're on a building site or on a highway, you'll definitely be able to go hard.

Although Navaras are as tough as they come, that doesn't mean we've scrimped on including safety features to protect you, your workmates and your family. All Navaras come with driver and front passenger SRS airbags, crumple zones, door side intrusion bars and the improved control offered by the Anti-lock Braking System (ABS). Choose one of the new ST-X Dual Cab models and you'll also get side-impact and front to rear curtain airbags; giving you six in total. Plus three-point seatbelts throughout as well as three child seat anchorages. The new ST-X 4WD Diesel model also comes with **Electronic Stability Program** (ESP) with Active Brake Limited Slip Differential (ABLS). Whether you're working hard or playing hard, you'll be doing it in comfort and safety.

Navara RX

2WD Double Cab Wellside

Engine: 2.5L Intercooled Turbo Diesel

Power: 106kW@4000

Torque: 356Nm@2000

Braked Tow Capacity: 2,000kg

Transmission: 6-Speed Manual, 5-Speed Automatic

Features:

Dual Front Airbags

ABS & EBD braking systems

Remote Keyless Entry
